

PLPS Pilot Light Transformer

PLPS-120 is ILC Part No. 8810 1100 for 120 VAC applications
PLPS-277 is ILC Part No. 8810 1096 for 277 VAC applications

General Information

- Capable of operating up to 40 PCS-PL pilot light switches (with 18 gauge wire, distance between switches less than 1000 ft.)
- Rating – 10.2 VAC and 3 amp
- Interchangeable devices mounting configuration
- Color coded (black, purple and orange) leads, 20 AWG, 4 inch minimum

Physical:

- Mounts in standard 4 $\frac{1}{16}$ " electrical box
- Operates in any position

Electrical:

- 120 or 277 VAC input
(120VAC- Part# 8810 1100 for TR-120, 120A)
(277VAC- Part# 8810 1096 for TR-277, 277A)
- 10 VAC output

Operating Environment:

- Location Interior Space
- Operating Temperature 0° to 60° C (32° to 140° F)
- Relative Humidity 10% to 95%
- Atmosphere Non-condensing
Non-corrosive
- Vibration Stationary application
NEMA Level A

Certifications:

- UL
