

# Weatherproof Switch Cover

- Single gang weatherproof cover
- Decorator (Decora®) style switch cover
- Clear lid provides visual switch and LED indicator status
- Mounts on LightSync™ push-button and touch switches
- Custom switch configuration plates available

## Overview

This is a weatherproof switch cover that mounts onto any decorator style switch, including any LightSync push button switch or LightSync touch activated switch. The cover provides protection in hose-down or high dust areas, and protection from accidental activation. The cover is made by Pass & Seymour with a clear self-closing polycarbonate lid, gray reinforced thermoplastic base and 3/32" gasket. ILC can design a custom weatherproof switch cover for your project needs that require key or NFP switches, LEDs and more.

## Features

- Mounts on a standard single gang box
- Spring loaded clear polycarbonate lid
- Padlock tabs
- Reinforced gray thermoplastic base
- Weatherproof design
- Accommodates any Decora style switch
