**ACKNOWLEDGMENT OF COMPLETE CERTIFICATION
OF LIGHTING CONTROL DEVICES**

Dear Manufacturer: Tom Biehl, INTELLIGENT LIGHTING CONTROLS

On October 12, 2005, I received your certification statement for lighting control device model numbers 930025**, 930026**, 93000378, 93000379, 93000372, and 93000371 sold under the brand names of Apprentice, Light Master, and Quanta Elite. I have reviewed your certification statement for compliance with Section 119 of California's 2005 Building Energy Efficiency Standards for Residential and Nonresidential Buildings. I am pleased to inform you that your certification statement is complete and accurate on its face. The information complies with the part of Section 119 that states:

Any automatic time switch control device, occupant-sensor, motion sensor, photosensor, or automatic daylighting control device shall be installed only if the manufacturer has certified to the Commission that the device complies with all of the applicable requirements of Subsections (a) through (f), and Subsections (h) through (j), and if the device is installed in compliance with Subsection (g).

The above models are certified to this standard only. These models are currently in our database and will appear in the next edition of our on-line directory of certified lighting control and demand control ventilation devices. The Commission's computer program verifies compliance based on your certification data. Should the standard be changed in the future, new certification may be required at that time. You will be notified if any model fails this computer edit program.

You can now access our certification forms and instructions via the internet. Please go to the following link to access these forms. http://www.energy.ca.gov/appliances/appliance/forms_instructions_labs/

If you have any questions, please contact appliance program staff via email. Also, please inform us in writing any time your company changes names, addresses (either street and/or mailing address), telephone number, FAX number, web-site, or contact person(s). Please address all appliance certification related correspondence to: Appliance Certification Program; California Energy Commission; 1516 Ninth St., MS-25; Sacramento, CA 95814-5512. Any certification data addressed incorrectly will be delayed.

Sincerely,

CAROLYN MCCORMACK
