

# Photocell Sensor Head

## General

- Indoor or Outdoor sensors
- Indoor range 1 to 100 fc
- Outdoor range 1 to 1000 fc
- Connects directly to photocell controller board
- Durable construction
- Completely digital sensor for accurate measurement of foot candle limits
- Sensor may be located up to 5000 feet from controller

## Outdoor Sensor:

- Designed to be mounted to building surface or electrical box
- UV stabilized

## Indoor Sensor:

- Designed to be mounted to ceiling tile or other ceiling structure
- UV stabilized
