

Apprentice 3

DMX Interface

Overview

The Apprentice 3 DMX interface add-on module can easily be added to any Apprentice 3 programmable lighting control panel to provide for direct control of ON/OFF lighting or other loads from any DMX control device. Any of the available 512 DMX control channels may be mapped to control individual relays.

Features

- **Made in the USA**
- **Digital CAT-5 Ready**
- Once plugged into the lighting control panel, DMX control functions can be programmed and reviewed directly from the lighting panel's keypad

DMX 512 Control

- Adjustable ON and OFF set points
- Each relay may be locked ON/OFF based on DMX levels
- Map any relay to any DMX control channel
- Adjustable DMX frame filter

Warranty

One year limited warranty
