

LightSync G3 Custom Change Kit Order Form - Single Device

LSG3 switches are provided with standard labeling as default and this form is used to request Custom labeling for buttons, or changes in color. Fill in the desired switch attributes and the labeling information for each button, if a label field is not edited the button will be sent blank. For color only changes select Default Labeling. Select the Blank option for no labeling on all buttons. For configuration details and button layouts options refer to LSG3 Switch Configuration Details sheet PD0628
