LightLEEDer | **Wet or Wash-Down Location Touch Switch**

Overview

The touch switch station offers a durable push button or optional piezo switch that is ideal for medical or food-processing areas that are wet or require wash-down. Switches are rated to IP68. Protected from low pressure water jets from any direction and total dust ingress. Switch stations are available with 1 to 3 highly durable push button or optional piezo switches and have a status LED built into each button , optional non-LED version available. Each button may be individually programmed to control any relay(s), group(s) or preset(s) throughout the network. Switch faceplates are stainless steel and are supplied with a sealing plate gasket.
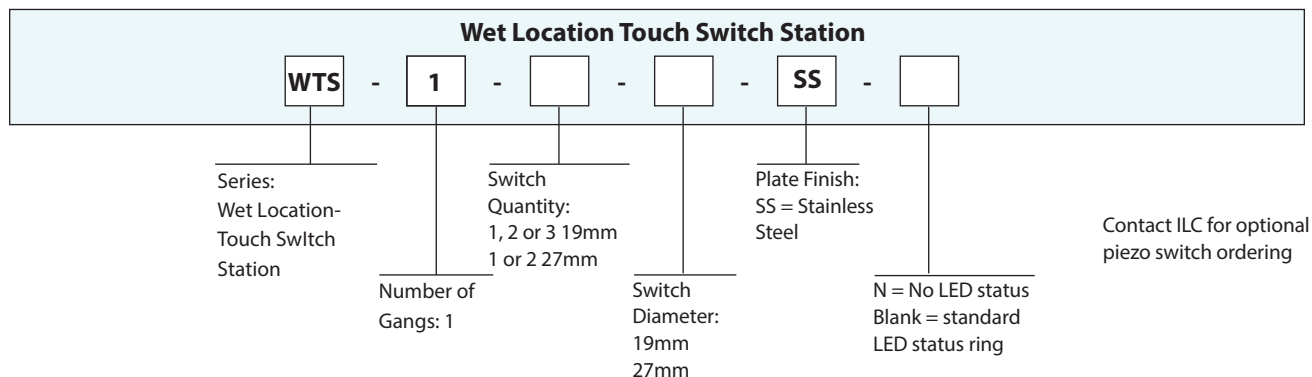

Features

- **Made in the USA**
- **Durable** vandal and water resistant switch station
- **Life expectancy** up to 50 thousand electrical cycles
- **Sealed** for pressure washing or wet areas
- **Switch station** available in 1 to 3 button configurations
- **Buttons can be programmed** to control any relay(s), group(s) or preset(s)
- **Status LED ring** indicates the true state of a relay(s), group(s) or preset(s)

- **Non-LED** option available
- **Stainless steel faceplates**
- **Mounts** in a standard wet location single gang box
- **Engraving** is available for switch identification
- **Custom** configurations available
- **Gasket** provided with switch station
- **Optional** solid state piezo switch

Specifications

Physical:
• Standard single gang mounting
• Stainless steel switch and switch plate
• Pigtail wires for termination
• Vandal and water resistant switch
• Waterproof connectors included
• Engraving up to 10 characters are available
  (4 characters for the 3 button switch)
• Gasket provided with switch station

Switch:
• Stainless steel
• Diameter of .87" or 1.10"
• Green illuminated ring
• Non-LED option available

Electrical:
• Current/voltage: 2A @ 24VDC
• LED: 20mA @ 2.8V
• 50,000 electrical life cycles

Operating Environment:
• Location: Interior/Exterior space
• Operating Temp.: -20 to 55 C°
• Switch Intrusion: IP65
• Atmosphere: Non-explosive/corrosive
