LightSync Conditional Input Module
Product Detail

Switch input connectors
push in type terminals
18AWG rated

Optional power input for
connecting external power
for "Wet" contact type

Switch input status LEDs

Switch inputs for dry contact closure type low voltage switches
Switch closure LED status indicator
Switch inputs provide power at 12VDC to the switch
Inputs trigger at .05ma on a 1/2 second closure

Optional external power supplied at 12VDC (12-24V)
Jumpers W1 & W2 required for external power
Inputs trigger at .05ma on a 1/2 second closure

Maximum distance to switch(s) of 3000 feet using #18AWG wire
