ILC Compliance for OpenADR 2.0

ILC LightLEEDer panels are compliant with OpenADR 2.0a or 2.0b requirements when using a IPKeys EISSBox 3 interface that is certified compliant by OpenADR Alliance.

IPKeys EISSBox certification by OpenADR

Company Name:	IPKeys Technologies, LLC
Brand Name of Product:	EISSBox
Product Model Name:	EISSBox

EISSBox 2.0 – an OpenADR 2.0b-certified Virtual End Node (VEN) permitting an OpenADR 2.0b server to interface with existing facility equipment and automatically respond to DR/price signals. EISSBox 2.0 VENs incorporate interval data logging support for up to 7 meters – providing secure, near-real-time telemetry via the OpenADR 2.0b EiReport web service.

IPKeys EISSBox compliance document can be found on the OpenADR website:
