

Overview

LightLEEDer flush trim rings are designed to provide a clean appearance for flush mounted controllers by providing a 2 inch extension ring around the enclosure. This Flush Ring is then secured to the wall covering any edges of the wall cutout. The original ILC Door is then mounted on-top creating a seamless look.

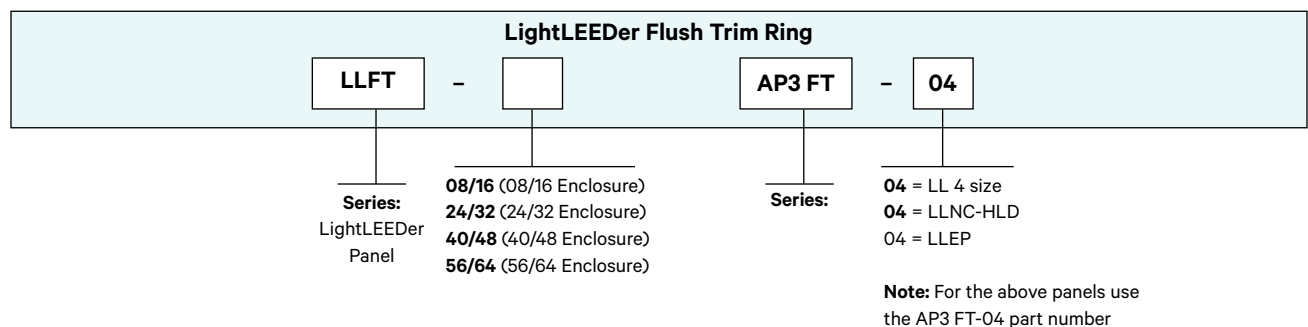

Features

- **Made in the USA, meets BABA Requirements**
- Provides a clean trimmed look for panels
- **Available** in four sizes
- **Color** matched to panel

Warranty

Five-Year limited warranty

Ordering

All ILC product configurations are built to be compliant with the Buy American Act of 1933 (BAA) or the Buy America Build America Act (BABA). BABA is the minimum Government compliance requirement for the Buy America Build America standards which is part of the Infrastructure and Investment Jobs Act (IIJA). Individual Government Agencies may have more stringent compliance standards. Please refer to the [DOMESTIC PREFERENCES](#) website or consult the CLS Domestic Preferences team for more information. Components shipped separately may be separately analyzed under domestic preference requirements.
